Milestones #2 & #4

by Warren Ediger in [02. Standards](#) on Tue, 23 Oct 2007 at 7:56am

Here are the overview, resource, and reference documents for Milestone #2: core, or essential, standards.

1. Please read the overview document: *Milestones 2 & 4*
2. Unless you prefer to work on screen, download and print the work document: *CA 9-12 ELD Stds WestEd 01 adapted*. When we meet to discuss the standards, this is the document that we will work from.
3. Please take the time to acquaint yourself with the state resource documents. These anchor the process we are beginning.
4. I will direct our activities by using *To Dos*. Remember: when we are working on a group *To Do*, I will be responsible to check it off when we complete it, usually after a meeting. Don't check it off when you finish your part.
5. The summary of our 10/5/07 meeting provides the criteria for our work on this Milestone.

If there are any questions, please use the comments to the message. That way everyone can benefit.

Thanks!

Warren Ediger

Yes, but ... you only have to deal with small parts of it at one time ... :)))

Okay; which one first? I'm pretty familiar with most of the literature, but of course I want to be fresh (as a daisy) regarding it.

Thanks susan

To clarify:

1. Read the instructions above: you'll probably want to download (& possibly print) the meetings from our 10/5/07 meeting, the *Milestones 2 & 4*, and the *WestEd ELD Stds* documents.
2. Click on the *To Do* tab; at this time there is one *To Do* for this Milestone.

If you have questions after that, please let me know.

Thanks!

Warren – any chance you have a hard copy of the 93 page document that is listed? Or any of the others for that matter? I printed the WestEd document but I thought I'd ask before I murder a printer/ink cartridge... I'd be happy to swing by and pick it up and deliver if anyone else wanted it!

I had assumed that the only documents we'd need to print were the shorter working and resource documents. The *CA 9-12 ELD Stds adapted* and *CA ELD Stds Exec Sum* documents probably contain all we need from the total CA ELD standards document (the long one) and they are a fraction of the length.

I can arrange for printing of the total ELD Handbook if you think it's necessary. I had assumed it would be consulted online or downloaded to disk, but not printed.

Tracy if you really want a full copy of the whole thing, I printed it in its entirety not realizing just what it was. (that's what happens when you multi-task sometimes, trying to teach class and work on other things.) You are more than welcome to my copy. I already have the book.
